

Bushy Park Elementary School

Consideration Card for Next School Year 2018-2019

As the new school year approaches, we focus on sharing information and what we've learned about our students in order to promote continuous progress.

This Consideration Card is for you, as parents, to relate specific student information or observations about your child that you feel would be beneficial as our teachers meet to determine next year's placements. For example:

"My child seems to work much better in a classroom space with opportunity for movement and with a teacher who has a structured routine."

"My child is shy and often knows the answer, but is afraid to raise his/her hand and would work best with a teacher who gently encourages participation."

It is helpful to focus on your child's learning characteristics. Your feedback as a parent is valuable. There are certain concerns that we cannot consider as part of this Consideration Form; therefore, we ask that you NOT use the form to propose the following:

- Do not request specific teachers.
- Do not request grouping based on siblings' experiences
- Do not request grouping with friends
- Do not request grouping based on hearsay

Your child's future teachers will read your Parent Consideration Card. We consider what you share as valuable information to get to know them as learners, as well as, input for their future instructional groups. Thank you for taking the time to share!

INFORMATION REGARDING MY CHILD'S LEARNING NEEDS

Child's Name: _____

Entering Grade: _____
